

PolarCool is adding to its research & development team

About PolarCool AB (publ)

PolarCool AB (publ) is a medical device company that develops, markets, and sells products for sports medicine. The company focuses on treatment of concussive and sub-concussive brain injury with the portable cooling device PolarCap® System. PolarCool AB (publ) is based in Lund, Sweden, and its shares are listed on Spotlight Stock Market.

About the role

We are looking for someone who wants to conduct their internship in a company operating within an exciting niche. You will be able to directly influence our product development, which serves as great qualification on your CV. The right person will have an opportunity for employment after the completed internship.

As an intern, you will collaborate with the R&D organization in order to adapt and improve our products. The tasks include:

- testing & verification
- electronics
- mechanics
- product design
- CAD / 3D models

Who are you?

You are a person that takes initiative and is not afraid of trial and error. You have a wide interest in technology, and you pursue the opportunity to develop new solutions. It is important that you have a "hands-on approach", have an interest in experimenting and want to influence the quality of our products.

Other information

- Starting period: Upon agreement
- Amount of time: according to agreement
- Compensation: The internship does not carry a salary
- Location: Lund
- Contact: Iman Ziai – CEO, 073-3992317, iman.ziai@polarcool.se
- Please email CV and personal letter to the specified address. We will reply to the applications that we consider match the profile.
